

Why IAs are needed in the kitchen

Better content management through information architecture

Ruud Ruissaard
Informaat.nl

Sept 2008

What's happening?

- **Content management in the IA community**

Presentations:	Int'l IA Summit	< 7%
	EuroIA	< 2%

Mailing lists:	SIGIA-L	< 5%
	IxDA	< 2%

- **Information architecture in the CM community**

Presentations:	CM forum	< 8%
----------------	----------	------

Mailing list:	CMS list	< 11%
---------------	----------	-------

MIND THE GAP

BRIDGE THE GAP

Front stage

- Available information
- Features and functions
- +/- User experience

- Structured content
- Search & find
- Navigation

Back stage

- Content management *Systems*
- Content management *Organization*
- Content management *Processes*

No front stage without a back stage

No front stage UX without a backstage UX

An example

Tuschinski

Abraham Icek Tuschinski
(1886-1942)

Front stage UX

Below the surface

Below the surface

Above the surface

Back stage (past)

Back stage (present)

© Rijkswaterstaat - 18 oktober 2005 - 12:03 uur

Back stage (neglected)

An example

Elements of restaurant UX *

- Amount of choice on the menu
 - Quality & price of food
 - Quality and timing of service
 - Hospitality and atmosphere
 - Coordination between 'black' & 'white'
-
- Efficiency
 - Profitability
 - Quality of products

Gordon Ramsay

Statement

No front stage without a back stage

No front stage UX without a back stage UX

Current state of 'our kitchen'

Current CM practice

Systems

CM

Processes

Organization

Limited focus on systems

Experience (UX) & Expectations

System

Technology

Features

Corporate satisfaction with CMS implementations

37%

CM and IT

Some relevant statistics

- On budget 51%
- Meet expected ROI 59%
- On time delivery 38%

On time delivery: Europe

Sweden	44%	Israel	8%
Switzerland	24%	France	6%
Czech Republic	20%	Belgium	4%
Germany	19%	Italy	4%
Denmark	16%	Netherlands	4%
UK	11%	Russia	4%
Finland	8%	Spain	4%

Why most IT projects go wrong?

- Requirements: ambiguous, incomplete and contradictory
- Budgets: insufficient, inflexible and poorly managed
- Stakeholders: too many, hidden agendas and changing

Why most CM projects go wrong?

- Often overlooked as an imperative
- Complexity is underestimated
- CM crew is neglected
- Lack of experience and expertise
- Out-of-the-box deployment of CMS

Are the organizations to blame?

Everybody can be a web designer!

Desired CM practice

Information architect in the kitchen

- Knowledge
 - Skills
 - Methods
-
- Mindset
 - Attitude
 - Motivation

To do list

1. Apply IA expertise to content management
2. Adopt a holistic approach
3. Advise the organization dealing with change ('delta')

Holistic approach

Back stage mindset

Abstract actors

Efficiency

Reuse

Standardization

Productivity

Front stage mindset

Human

Creative

Emotional

Enjoyable

Usability

Bridging the gap

Advise the organization dealing with change

Rule #1: Know your clientele

Rule #2: Identify the actors

Rule #3: Keep it F... simple
